## PERSONAL STATEMENT

A competent and responsible engineer with a profound working experience in Production Planning, Supply Chain, and Procurement supported by SAP. I am looking for an opportunity in a prestigious organization where I can use my skills and experience, topped up by my recent knowledge boost at Politecnico Di Milano, to learn and grow with the leading professionals and contribute to the overall success of organization.

## WORK EXPERIENCE

Jan 2018–Jun 2018

### **Project Consultant**

Pietro Fiorentini, Milan (Italy)

Successfully improved supply chain of different components, related to Gas Meter, through new packaging solution to achieve optimum Productivity, Quality and Safety of operators.

Jan 2015–Aug 2016

### **Assistant Manager Planning**

Midas Safety, Karachi (Pakistan)

- Responsible for Management of Raw Materials in accordance with Safety Stock, Production Planning, and Purchase Requisition through SAP and ensure optimum Raw Material Inventory for effective utilization of warehouse capacity.
- Negotiate with vendors for Rates, Payment terms and delivery of materials and Ordering of Raw materials (PO generation) to procure materials from both Local and international markets after finalizing all the terms, and maximum procurement through SAP-ARIBA for Cost Saving and Transparency.
- Reduce and achieved target of overall inventory level to \$8 M from \$10 M by redefining safety stock, reorder point and negotiate with vendors about MOQs without any shortage of Raw materials from Dec 2015 to June 2016.
- Monthly evaluation of vendor's performance through Quality of Goods delivered and On Time Shipments.
- Lead supervisor for SAP-ARIBA bidding for supplier competition and power user of SAP (MM) module.

Oct 2012–Dec 2014

### **Senior Officer Planning**

Midas Safety, Karachi (Pakistan)

- Responsible for the development of weekly and monthly production plan of around 800 SKU's corresponding to; Customer Orders, forecasted demand and plant availability ensuring minimum changeovers and optimum plant capacity utilization.
- Initiated and implemented alternative Bill of Materials (BOM) verification in SAP to reduce Raw Material inventories.
- Successfully implemented "Online Packaging Stations" in Production department and increased 5% packing productivity in June 2013.

## EDUCATION AND TRAINING

Sep 2016–Sep 2018
